Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

11/20/20 - 11/26/20

Friday-Thursday

- Areas of overnight and early morning fog continue for the coastal valleys the next few nights, with localized very low visibility
- Elevated fire weather conditions will occur at times Saturday through Monday over the southern California mountains where winds will locally be gusty up to 35 mph and humidity will remain low
- Some very light precipitation could return to far northern California early next week, with otherwise dry and quiet weather conditions expected for much of the state over the next 7 days
